The Child and Adult Care Food Program office is pleased to announce the availability of the revised Crediting Foods In The Child and Adult Care Food Program guide, which is now available online. This document supersedes the original publication developed by the Food and Nutrition Service of USDA, and is a useful reference tool for the crediting foods policy in the Child and Adult Care Food Program.

We have no plans to print copies at this time. This publication and other Child and Adult Care Food Program information are available for download on the New Jersey Department of Agriculture's website under the Division of Food and Nutrition in the Guides and Resources section. You may access this publication and other CACFP information by entering the following WEB address into the address box of your WEB browser:
